

Siempre crece: La fruta (Always Growing: Fruit) (TIME FOR KIDS® Nonfiction Readers) (Spanish Edition)

Take a seed from an apple and plant it in the ground. What will happen? If watered, the seed will sprout and begin to grow into an apple tree. The tree will eventually sprout flowers, which slowly transform into apples. The process of a tiny seed growing into a piece of fruit is an exciting process to introduce to young learners. Featuring vibrant photographs that show the growth process of fruit, this e-Book will engage students and encourage them to describe what is happening in each picture. This e-Book relates to Next Generation Science Standards and McRel Science Standards, and focuses on growth and change.
