

A+T 44 Workforce: A Better Place To Work 2

A Better Place to Work 2 is the second volume of the WORKFORCE series, dedicated to the design of workspaces. In this issue, Javier Mozas aims to clarify the vague sea of intentions which give rise to the form of a workplace. The article "Redesigning the office building. Sources of inspiration" analyzes graphically the material and ethical dimension of projects, such as One Pancras Square by David Chipperfield or ÖKK Headquarters by Bearth&Deplazes, reclaiming references, highlighting elements or pinpointing qualities in that this might help to understand the sources of inspiration used by the architects. Moreover, A Better Place to Work 2 covers 20 projects of workspaces which come at this point of transformation where the limit line between exterior and interior has become a border between professional competencies. 160 pages, ills colour & bw / 24 x 32 cm / English, Spanish
